Fire Chief Report
August 8, 2022

1. District ran a total of 52 calls for the month of July 2022. See attached report.
2. Projects currently
 - a. We have finalized the build for the new Brush Rig. – Fouts is just waiting on Ford for the Chassis. Ford still has not released a build date. I have talked with them again about options. We can try and find a chassis and purchase it direct and get it to them, in which they would credit the district \$50,000. Vancouver Washington just did this, and they ended up paying \$28,000 more for the chassis. Current pricing is anywhere from \$67,000 to \$75,000 if you find one that meets the requirements. I would recommend that we wait.
3. Grants
 - a. Safer Act – looking at submitting in 2023
 - b. The AFG application has been submitted for 10 sets of Turnouts and 23 pagers. Just waiting. – Received and email last week to verify 3 questions. Now just waiting.
 - c. Murray Paolo is finishing up the Homeland Security Application for Phase 4 of the District Radio Project. – We have placed the order for the Radios that we were awarded in the Phase 3 Project. We have received the reimbursement. We are looking at September before we might see them. We did submit Phase 4 of this project and the committee has reviewed everything, just waiting to see if we were awarded. If awarded it would complete the Tri-Band Mobile Radio update project for the district.
 - d. Will be resubmitting the DEQ Grant for a New Brush Rig. Grant is due in June with an award notice in August and funding in November. I have resubmitted the DEQ Grant. The updated quote is \$215,000 to \$250,000.
 - g. The Seasonal grant, we received the funds this last week. We currently have folks signing up for shifts.
4. Continue to work on the setup of the new ESO Reporting software. We started doing all Medical and Incident reports on the new software as of January 1, 2022. Currently working on the Inventory and equipment checks piece, along with the Asset Management. Work in progress!
5. Engine 42 is in Yakima having the pump repaired. They are finishing up some minor things while they had it, and it should be done shortly, maybe as early as next week. The current repairs as to date is \$8,984.38.
6. Currently working on rough drafts for the 2023-2024 and 2024-2025 Budgets and trying to find options for additional funding

7.	My hours for the month of July	
	District Work	180.75 hours
	Calls	40.25 hours.
	Drills	6 hours
	Class	0 hours
	Other	28.75 hours
	Total	255.75 hours
